LOOKING FORWARD

MEETING COMMUNITY NEED

Approximately 20% of patients are referred to EEH by a family member. Educating the public is vital to helping more East End residents access hospice care and benefit from the robust services and support offered.

STRENGTHENING THE CARE CONTINUUM

New York State ranks 50th in the nation in hospice utilization. New programs designed to support patients as they transition from curative to palliative care will reach more patients and fill a gap in the East End's healthcare offerings.

LEVERAGING OUR EXPERTISE

EEH has a well-established reputation for excellence. Through state-level advocacy and regional partnerships, including the Hospice and Palliative Care Association of New York and Stony Brook Medicine's Post-Acute Care Consortium, EEH will promote access to high-quality end-of-life care for all.

SECURING OUR FUTURE

From our grassroots founding to our current operations and beyond, community support is the cornerstone of our operations. EEH's donor base is expanding. Charitable donations and a growing endowment fund will provide annual operating support and promote long-term sustainability.

ABOUT EEH

Since our certification in 1991, East End Hospice has been Eastern Long Island's only independent, not-for-profit hospice provider. Licensed professionals and trained volunteers care for patients across 450+ square miles and at our Kanas Center for Hospice Care, the region's only dedicated hospice facility. EEH supports more than 800 terminally ill patients, their caregivers, families and friends, and hundreds of bereavement clients each year, all at no cost.

OUR MISSION

East End Hospice is dedicated to improving lives through expert care, comfort, and compassion for terminally ill patients, caregivers, and grieving families.
